Thorold Library: Teen Advisory Board

Volunteering: Thorold Minor Sports, Senior Centers & Places of Worship

Brock University: Math & Science Mentorship Program & STARs Program

Home Build Program: Mountainview Homes

Growing Together

Strengthening Our Community Through Investing in Thorold Secondary School

In late 2021, DSBN & City of Thorold started working together to discuss the potential of building a synthetic turf field across from the high school in the McMillan Park area. The school has used the field for many years for gym, extra curricular practices, and football. But without a proper field, TSS students are not provided the same opportunities or amenities as other secondary schools in Niagara.

We want to fix that.

Working together to get it right

Public Consultation illustrated that overall there is a strong community desire to work collaboratively including strong support from Thorold Sports Associations (baseball, soccer, flag football)

New drawings include fully accessible Community Splash Pad & Playground

DSBN & City of Thorold are working together to finalize a plan that will be mutually beneficial to the students and families of TSS and the community of Thorold.

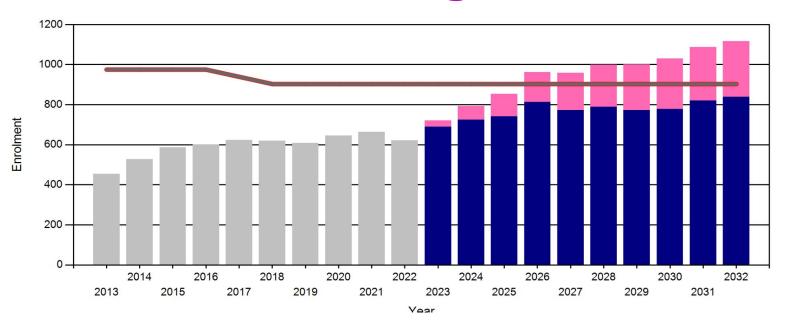

Over **9500** secondary students will use this facility in the next 10 years. Thousands of more kids will play on this field, as TSS hosts elementary school events, community/regional teams & events!

Community Partnerships would also see Thorold Minor Sports and community members have access to turf field & track.

The cost of the turf field & track as well as maintenance will be provided by the DSBN

Thorold Secondary School is Growing

Projected Enrollment in ten years is 1116 students!

These smiles say it all!

We look forward to continuing to work with the City of Thorold to provide greater opportunities for the students of Thorold Secondary School & the Community of Thorold.

Thanks!

We are always looking for great ways to provide real life learning for our students in our community!
