

Title: Appendix 2 - PWCS2020-57 Cost Sharing Agreement - Region - Pine Street Design Work.docx
Report Number: PWCS2020-57
Meeting Date: Tuesday, November 03, 2020
Report Prepared: Wednesday, October 21, 2020

RECOMMENDATION(S):

1. That Council approve a Cost Sharing Agreement with the Niagara Region for its share of the Pine Street (Highway 58 to Beaverdams Road) Infrastructure Replacement Project.
2. That the Mayor and Clerk be authorized to execute the necessary agreement.

REPORT:

City staff have commenced the design phase for the replacement of the sanitary sewer on Pine Street between Highway 58 and Beaverdams Road. (see appendix 1). This road section falls under the jurisdiction of the Niagara Region who have evaluated the road conditions and plan to reconstruct this section in 2023.

Staff recommend that we coordinate the sewer and road construction with the Niagara Region to achieve costs savings and minimize the impact of construction in this area. A cost sharing agreement with the Niagara Region for the current design phase of this project has been prepared for Council's consideration (see Appendix 2). The design phase will be coordinated by the City of Thorold. Project management of the construction phase will be determined at a latter date.

BUDGETARY STATUS:

N/A

STRATEGIC PLAN:

Build and sustain infrastructure that generates civic pride.
